PART I. OF

THE STATISTICAL ATLAS
OF
ENGLAND, SCOTLAND, AND IRELAND.

Edited by G. PHILLIPS BEVAN, F.S.S., F.G.S., &c.

The increasing attention that is now being given, both at home and abroad, to the study of Statistics, warrants the belief of the Publishers, that this attempt to illustrate the Statistics of Great Britain and Ireland by Maps will be appreciated to a large section of the public public, and will help to popularise and make more interesting one of the most important branches of knowledge.

It is proposed to embody fifteen maps in all, each group including three Maps with small Plans of the Capitals, one for England, one for Scotland, and one for Ireland (on the same scale), to appear monthly as nearly as can be arranged.

The whole Atlas will thus contain Forty-five Maps, or Fifteen Parts, each of which, however, can be had separately, price 7s. 6d. Each part will be accompanied by copious Letterpress, bringing the Statistics of the group up to the latest date. The following subjects will be treated upon :—

I. Religious.	IX. Legal.
II. Educational.	X. Railway and Telegraph.
III. Industrial.	XI. Sanitary.
IV. Criminal.	XII. Geological and Mining.
V. Poor-law and Pauperism.	XIII. Hydrographical (Water Supply.)
VI. Marine (Commercial.)	XIV. Political.
VII. Agricultural.	XV. Population.
VIII. Military and Naval.	

No efforts will be spared to make the information reliable, and as full as is compatible with clear delineation; and it is confidently hoped that the result will be an illustrated compendium of British Statistics which will form a unique work of standard reference.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, DEC. 8, 1880.

ACCUSTOMED as people have become to rely on Reuter's subscription messages for detailed information, the fact of yesterday's closing message from London not having been delivered until late this afternoon caused quite a pause in business; and we have therefore had an extremely quiet day in everything except Government Paper. In this quite an excitement has been caused by the result of the tenders for the sterling loan of 3½ millions, which were opened yesterday. According to Reuter, the applications amounted to 14½ millions, of which tenders at £103-11 received 13 per cent., £103-11-6 in full, whilst one million was allotted at £104. This result is even more successful than was generally anticipated here, and a strong impression prevails that it will lead to an alteration in the manner of borrowing for the future. The values of Rupee Paper have advanced from 81½ to 82¼ for Fours, and from 89 to 90 for Fours-and-a-half. Consols are unchanged at 99⅛ and French Rentes at 119.

In the General Produce markets Coffee and Cocoanut-oil are unchanged. Linseed comes flat and 3d. per quarter lower in Calcutta, to arrive; Rapeseed dull and 3d. to 1s. per quarter lower; Wheat dull and 9d. to 1s. per quarter lower in London and 1d. per cental down in Liverpool for No. 1 Soft White.

Piece-goods in Manchester are reported firm at unaltered prices for goods, but Twist is ⅛d. per lb. lower.

Cotton in Liverpool yesterday closed with supplies freely offered, the day's sales being 10,000 bales, of which only 800 were Surats. Spot prices come unchanged all round, but futures are quoted 1-32d. per lb. lower. In New York, with comparatively full receipts at the ports for the day, March shipment has receded from 12·46 to 12·32, but ready Mid.-Uplands are still given at 12 cents per lb. The receipts at the ports to date give the following comparisons:—

	1880.	1879.	1878.
Tuesday's Receipts	35,000	35,000	29,000
Four days' do.	130,000	114,000	113,000
Total since 1st Sept.	2,658,000	2,461,000	2,055,000

EXCHANGE.—Although there has been nothing apparent to exercise an effect on the market, except, perhaps, an absence of mercantile paper, whilst there is a fair demand for bank bills, the tone to-day has been weak, with a further decline of 1-32d. per rupee both in ready and forward. Calcutta at the close is said to come steadily, but this has had no visible effect, and we have now only to await the result of to-day's biddings for Council drafts in London. The general idea seems to be that we shall see an average of about 1s. 7⅞d. obtained, in which case no material alteration from the existing level is probable, but anything over or below that figure would probably induce a corresponding movement. We call closing quotations for ready bills:—

Bank Bills on demand	.... 1s. 7 23-32d.	per rupee.
Do. telegraphic	.... 1s. 7 11-16d.	,,
Do. 3 months' sight,	1s. 7 13-16d.	,,
Credits, 3 ,,	,, .. 1s. 7 15-16d.	,,
Documents, 3 ,,	,, .. 1s. 7 31-32d.	,,
Francs, 3 ,,	,, .. 2f. 10½c.	,,

On Calcutta there has been no change in rates.

GOVERNMENT PAPER, as already noticed, has been quite excited to-day, owing to the figure obtained for the sterling loan in London yesterday. Rates opened with an evident upward tendency, and a large business was done in Fours at Rs. 100 11-16 and in Fours-and-a-half at Rs. 109 11-16; at the close the quotation is ¾ for both, with more buyers than sellers, and it almost seems as if the advance must yet go on. In Calcutta they are ¼ higher than here, and there can be no question that the market is comparatively bare of paper, the bulk of the holdings outside of permanent investors being in the hands of the banks. After such a rise as we have had within the past few days there is naturally an inclination to expect a reaction, but when we come to consider the rates ruling before the famine and the present surroundings of the market we question whether we can yet be considered as having attained a dangerous level.

SHARES are very quiet, with no business of importance passing. Our quotations give no material movements in values except in Spinning and Weaving Mill shares, which in a few cases are Rs. 10 higher.

COTTON to-day has been one of the quietest markets we have had for some time. The absence of Reuter's Liverpool and New York telegrams induced both sellers and buyers to hold aloof all morning, but it was very evident that the tone of the market was not strong; and when the telegrams did come in a fall of about Re. 1 to Rs. 2 per candy was established. Ready Hingunghaut has been sold at Rs. 244, March Broach at Rs. 242, and March Akote at Rs. 230, but it is questionable whether any of these figures could be repeated.

SEEDS and WHEAT are practically unchanged, although generally firm, notwithstanding the weaker, accounts from home.

FREIGHTS, although quiet, are firm. For Liverpool we quote weight at 35s., Measurement 36s. 3d. to 37s. 6d. For Marseilles and Genoa January shipment may be quoted at 42s. 6d., payable here.

PIECE-GOODS continue very steady, with an average off-take of about 400, packages a day, but there is a decided want of life apparent, and dealers are much more anxious to quit their existing stocks than to enter on fresh transactions.

COALS are steady at previous prices.

Agents in Bombay:

NOWROJEE BOMANJEE & Co.

Messrs C. MARCKS & COMPANY,

OF

BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12-lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE, and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

The Bombay Gazette

THURSDAY, DECEMBER 9, 1880.

THE Government of Bombay has been ill-advised enough to place an unauthorised tax of Rs. 15,000 per annum upon the city of Bombay. Instead of handing over to the Municipality the full amount of the police grant of Rs. 90,000 received for it from the Supreme Government, the Government of Bombay has taken it upon itself to hand over a sum of Rs. 75,000 only, and the city must find the missing Rs. 15,000 as best it can. There is no reason whatever, if this act be legitimate, why the Government may not next year hand over Rs. 15,000 to the Municipality and apply Rs. 75,000 to some object which it considers desirable to encourage at the expense of the ratepayers. Nay, the local Government may, if it so pleases, stop the whole Rs. 90,000 police grant *in transitu*, and compel the ratepayers to make up the deficiency by taxing themselves. It will be in the recollection of our readers that this very course commended itself to the Government of Sir Philip Wodehouse a few years since, and all remonstrances against it were unavailing, until the grievance was represented to the Government of India, when redress was promptly given. It was then distinctly laid down by the Supreme Government that the sum allocated out of the general revenues for the maintenance of a police force in Bombay, which was called upon to perform many services for imperial purposes other than, and in excess of, purely local duties, could not be properly intercepted by the local Government, but must be handed over for the purpose for which it was originally intended. The police grant is not merely an 'eleemosynary gift from the Supreme Government, which the local Government may pay over to the Bombay police or not, as it likes. It is a payment for services rendered by that police to the *State*. If those services were not needed, the police establishment of this city need not be kept up on its present scale, and the Municipality would be the gainers by the consequent economy. The contribution by the State to the cost of the police of Calcutta and Madras is much larger than that to the police of Bombay. There is good ground for claiming from the Supreme Government an augmentation of the grant, but there is no reason whatever why the Municipality should submit to the arbitrary curtailment of the grant hitherto made, by the local Government, which is merely the channel through which the Supreme Government transmits it to the city police. The duty of the Municipality is clear enough, and the Town Council has already decided to take the necessary steps to vindicate the right of the city in this matter. A memorial is to be drawn up and forwarded to the Government of India. It is difficult to believe the Government of Lord Ripon will allow the local Government to intercept at its own sweet will and pleasure a large portion of the very inadequate contribution made out of the general revenues towards the police of this city. But if the present heads of the Government of India should fail to take the same view of the matter as was taken by their predecessors, it will be necessary to lay the whole matter before the Secretary of State, and even, in the last resort, before the House of Commons. If municipal institutions in the great cities of India are to have any meaning or reality at all, arbitrary acts of this kind must be firmly resisted by all constitutional means.

THE telegram published by the *Times*, stating that the Greek Government is intriguing with Turkey, is one which will attract the eager attention of all politicians who follow the evolutions of the Eastern question. The only possible foundation for an "intrigue" between the Greek Government and the Porte would be the proposal of an alliance between the Greeks and the Turks against the Sclavic propaganda. No doubt the Ottoman Government, to secure such a combination, would be willing to give Greece a considerable slice of the territory which the Hellenic Government covets. If the alliance were made real and hearty, it would be a formidable obstacle in the way of the Sclavonic revolutionists, who are notoriously organising another movement against the Turks; and whatever the Sclavs might now wrest from Turkey would be lost to Greece. Of course the powerful support of Russia would enable the Sclavs of the Balkan Peninsula to pursue their policy of aggression even in the face of Græco-Turkish intrigues, but the political importance of the *rapprochement* between the Greeks and the Ottomans will not be the less on that account. It may suit Austria to assume a friendly attitude towards Greece and Turkey, and thus turn the scale against the Sclavs. A Greek Cavour might now play a great game, but it remains to be seen whether a man formed in his mould will arise at Athens.

THE colonial troops in Basutoland have undoubtedly fought remarkably well for their numbers, yet each successive telegram from the Cape makes the termination of the struggle appear more and more distant. The capture of the village and stronghold of Lerothodi, the leading spirit among the disaffected Basutos, ought to have struck terror into the hearts of the wavering and confirmed the resolution of those who were inclined to be loyal. But unfortunately it has not done so. That success of the colonists has, on the contrary, been followed by new risings among the Tembookies and Pondomise and increased excitement among the great tribe of the Pondos, whose population of 200,000 would be a formidable addition to the hostile scale. Whether the news of Colonel Clarke's success was too slow in penetrating to the surrounding tribes, or whether the fact of the success itself determined many waverers to throw in their lot with the rebels by showing them that the Basutos were hardly strong enough to fight and win the victory unaided, and that therefore they could not hope to see their wishes effected without themselves taking part in the struggle for liberty, cannot now be determined. At any rate Lerothodi's discomfiture has not marked a decisive point in the war. The capture of his stronghold was followed up by an attack on the fortress of Moletsane. This also was successful in itself, but the success was gained at the cost of an equivalent reverse. In order to attack Moletsane's fortress Lerothodi's village had to be left with a small colonial garrison, which was attacked by a force of 5,000 Basutos, while the main body of the colonists was taking the offensive elsewhere, and being unable to sustain the attack of such a numerous enemy, was forced to retire. Since that retirement, which was followed by a retrograde movement on the part of the main body under Colonel Clarke to Mafeteng, the intelligence that has arrived from Cape Town has been meagre. A telegram, dated the 14th of this month, announced that six thousand burghers were being called out for active service, and that the rebellion was "assuming a much worse form." Considering the bad state of affairs before, the words "much worse" are decidedly alarming. At about the same date some of the Boers were reported to be joining the enemy, and a few days later even those Basutos who had remained friendly when their kinsmen were in arms at last declared against us and attacked the Residency at Leribe. The last news from the seat of war is fairly satisfactory, announcing that 5,000 Basutos were repulsed by 1,500 colonists, with the loss of 300 men.

The unfortunate position of affairs will give a strong argument to those who urge that our colonies are an element of weakness rather than an addition to the power of the Empire. Certainly for the last year or two the South African colonies have received much from the mother country, and have not made, and are not likely to make, any equivalent return. They have, indeed, carried on commerce with great Britain to the extent of some £6,000,000 yearly, but commerce is an equal exchange, blessing impartially him that gives and him that takes. On the debit side of the account has to be placed the expenditure of the Zulu war, to which will almost certainly have to be added the expense of the Basuto war, which promises to be as formidable an undertaking as its predecessor. This war the colonists have entered into with a light heart. "We are led to the conclusion, both from personal observation and from other sources," says one of their warlike organs, "that the war, as a campaign, cannot last long. The tribe has much good sense and little stomach for fighting, in spite of the present infatuation. If our affairs are conducted with ordinary prudence, the common people will soon become tired of getting themselves knocked on the head for the sake of their chieftains, and the war will subside into an affair of hunting the rebels out of the fastnesses in which they may take shelter; and this, though possibly tedious, will not be a matter affecting the peace of the colony." How completely have these predictions of prophets close to the districts they were observing been falsified by the results! The military operations have been conducted not only with ordinary prudence, but even with marked ability, yet the area of the rebellion has been constantly increasing, till there is now a serious danger of a general uprising of all the native tribes of Caffraria. In the presence of such a contingency it is useless for the colonial statesmen to say that they will fight out the war with their own men and their own money. Though they have brought this grave danger upon themselves by acting in direct opposition to the advice of the Home Government, England cannot see her colonists spoiled and murdered by a semi-barbarous foe without stirring a finger to help them. But if England does interfere to save her colony from the consequences of what she considers an unjust aggression against an unoffending tribe, some security must be given that the same thing may not recur in the future. It is intolerable that a nation should be dragged against her will into a war provoked by the rashness and injustice of a remote dependency. Of course the colonists put forward the plea of their superior local knowledge, and urge that they are better able to decide upon the necessity or justice of a war in South Africa than statesmen whose knowledge of the country is derived from maps and Blue-books. But local knowledge is often more mistaken than the more disinterested view of a distant observer. As the colonists have, in spite of their local knowledge, made a false estimate of the opposition likely to be met with in the attempt to carry out their

INSPECTION OF THE KANDAHAR GARRISON BY GENERAL HUME.

(FROM OUR SPECIAL CORRESPONDENT.)

KANDAHAR, DEC. 7.

General Hume is inspecting each day the different regiments of the garrison on their own parade grounds. He is generally much pleased with the condition of the troops. To-day, after parade, he addressed the 7th Fusiliers, whose gallant behaviour at Deh Khwaja, where they lost over fifty officers and men, he assured them, had not been forgotten. Remembering the trials they had undergone from sickness and from war, their smart appearance and steadiness under arms, he told them, was most creditable, and showed that the regiment continued to act up to its glorious traditions.

BOMBAY OFFICERS ON THE KANDAHAR STAFF.

Major Jopp is ordered to remain as assistant Quartermaster General, Captain King-Harman taking his place on the line of communications. Bombay will thus be sufficiently represented on the Kandahar staff.

THE HEALTH OF THE VICEROY.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, DEC. 8, 8-44 A.M.

The Viceroy arrived at Allahabad yesterday, and in consequence of exhaustion, due to a sleepless night in the train supervening on the recent illness, he has interrupted his journey, and is staying with the Lieutenant-Governor. His visit will be absolutely private in its nature. It is not settled when he will proceed on his journey.

ALLAHABAD, DEC. 8, 2-30 P. M.

The Viceroy passed a tolerable night, and though still suffering from fever, may be pronounced somewhat better. It is impossible as yet to say when he may proceed, but he will certainly not be able to move for several days, or a week. It appears that the day at Poona upset him. This followed on a very trying day on Wednesday, when he got up at five to meet the Marchioness of Ripon, and in the evening went to Elephanta. Dining in front of the caves in the open air is supposed to have given him a chill, which the strain of the hot journey to Poona and the drive about the city developed into regular fever.

(FROM THE PRESS COMMISSIONER.)

CALCUTTA, DEC. 8.

His Excellency the Viceroy has passed a good night, and is progressing favourably, but is still weak and requires further rest before continuing his journey. He will therefore probably remain at Allahabad some days longer.

THE GILGIT AFFAIR.

ALLAHABAD, DEC. 8.

The latest news of the Gilgit affair is that the hostile tribes had fully relinquished the intention of attacking Major Biddulph, but reinforcements under Major Tanner will still make all possible haste to reach the post.

ARRANGEMENTS FOR ABANDONING THE KHYBER.

The abandonment of the Khyber now only hangs fire by reason of an understanding with the local tribes not having been completed. The arrangement to be made will be on the basis of the pass being held in our interest against all comers by the tribesmen in and about it. For a subsidy to be given the maliks will undertake to guard the road and give us timely warning of any hostile movement by the outside clans. No fortifications will be allowed to be built, but the chiefs will be encouraged to keep the military road in good repair.

Arrival from Bombay—The Indus.

STEAMER REPORT.

GALLE, DEC. 8, 1-20 P.M.

Mail-steamer Cathay, from Bombay, arrived.

THE good services of Captain W. C. Farwell, whilst Brigade Major with the troops in Kabul, have obtained recognition, by his preferment to the post of Brigade Major at Agra.

MR. J. F. FINLAY, Assistant Commissioner, Peshawur, has been placed on special duty, under the Public Works Department, for the purpose of awarding compensation for the land required for the Punjab Northern State Railway between Rawal Pindi and Peshawur.

THE return of mortality in the North-Western Provinces and Oudh for the month of October, 1880, is a striking contrast to the return for the corresponding month of last year. This year the total deaths from all causes in the month numbered 119,043, of which 91,248 were from fevers. Last year the total deaths during the same period was 429,115, of which no less than 401,080 were due to fever.

THE *Civil and Military Gazette* hopes that 'Mrs. Brown' may some of these days "give us her notions of Anglo-Indian men, women, and things in general. India offers her as rich a field for investigation as Paris and the Crystal Palace. It would be worth hearing her compare Kurrachee with Ramsgate, and the pegs and prawns of that station with the tea and shrimps of the English watering place. Before Mrs. Brown 'in society' Messrs. Austen and Forbes would pale their ineffectual fires." Well, Mrs. Brown has made a beginning in our columns.

THE announcement we made some days back, that the Viceroy had intimated by telegram that he would not preside at the ensuing distribution of prizes in the Doveton College, has, the *Englishman* remarks, met with some misconstruction. It is as well, therefore, to state that the telegram was followed by a letter from the Private Secretary, explaining to the Doveton Committee that Lord Ripon regretted he could not comply with their request on account of the multiplicity of engagements already upon his hands requiring his attention and attendance on His Excellency's arrival in Calcutta.

ALL the dreams of valuable prize, which cheered the army of occupation at Kabul, must, says the *Pioneer*, be abandoned once for all. The subsidy given to Abdul Rahman was nineteen-and-a-half lakhs of rupees, but of this only ten lakhs will appear as a gift absolute and unfettered. The nine-and-a-half lakhs which General Roberts seized and expended in Kabul were refunded to Abdul Rahman as Amir, a cheap way of subsidising him with Yakub Khan's money. We believe no engagement as to any future subsidy was entered into with the new Amir, but it is beyond doubt he must be kept well supplied with money for the next few years, if he is to hold his own. It is now rumoured that it may be thought worth while to give him ten lakhs to equip an expedition against Herat in the spring, and make his power supreme in Western Afghanistan.

A VERY interesting book, entitled "A Year in India," has been published by Mr. A. G. Shiell, a barrister, who has therein related his impressions of travel with much freshness of feeling and vivacity of style. He visited the principal places in India, about which he exhibits great enthusiasm, and he is not ashamed to express it. A tribute of fervid admiration he pays to the matchless Taj, that "frozen elegy," in the following terms :—" It is the one perfect thing I have seen in all my life, the single thing that exceeds all expectations, however great, and realises every ideal. I came to it fresh from the masterpieces of Delhi, as I had come to them from newly gazing on Himalayan snows. There I had been constrained to confess how poor, after all, even in its highest efforts, is the handiwork of man compared with the architecture of nature. But here I was hardly conscious whether I was the spectator of a triumph of nature or of art. For once it seemed as though art had assumed the sublimity and simplicity of nature in her grandest moods ; or that nature had put aside freak and caprice, and consented to be circumscribed within the limits and methods of art." With respect to the operation of British rule in India, Mr. Shiell offers a guardedly expressed opinion. But he claims for it that it has been animated by a high conception of duty, and he confidently asserts that "no other nation in the world could have succeeded where we have failed, and that least of all would the native have fared better under his own *régime*."

COUNT KAROLY, who some time ago killed Count Zichy in a duel in Austria, has been sentenced to three months' imprisonment, and the seconds to three weeks' imprisonment.

T. T. in *Truth* states that the Euphrates Valley Railway, one of the numerous "visionary schemes for ensuring the safety of our Indian Empire, has come to the fore again, and vigorous efforts have lately been made to induce our Government to take it up and lend a helping hand. He rejoices to hear that Mr. Gladstone, with characteristic sagacity, has expressed his unalterable determination to have nothing whatever to do with the project."

THE *Army and Navy Gazette* says :—It is generally rumoured in military circles, and we believe with truth, that the Marquis of Ripon and the majority of the Indian Council are in favour of the retention of Kandahar on both political and military grounds, but it is understood that the Imperial Government has decided on withdrawing from it as soon as possible, consistently with engagements.

EVENTS have, it seems, proved that the medical staff of Guy's Hospital was right in its contention with the governors of that institution, and that the nurses ought to be entirely subordinate to the doctors. Since the dispute first was made public one patient has actually died owing to a nurse undertaking to treat an accident. Now the two leading physicians of the hospital have sent in their resignation in terms studiously cautious and temperate.

SOME Dublin ladies have formed a "Ladies' Land League," for the protection and aid of evicted widows and orphans, having a central committee in Dublin, which will be in connection with the Irish National Land League. It is their intention to form branches in every county in Ireland, the first of which will be established in Bohola, Strade, and Balla, county Mayo.

CAR-DRIVERS in the west of Ireland have a lively recollection of the fate that befell the unlucky Jehu who drove Lord Leitrim on the last journey he ever performed alive. *Life* says that a short time ago Captain Knox, a large landowner, near Ballinrobe, and "a marked man," was driving on an outside car along a very "bad" road, that is, a road where one man was shot and several others shot at. On coming to a little hill the driver said, "Would yer Honour mind asin' the baste a bit up this hill ?" and the captain got down to walk. Jehu drove on, and "ased the baste" over such an unconscionable time that Captain Knox, when he at last overtook the car, felt a justifiable "exposition of wrath upon him." "You scoundrel," said he, "what do you mean by going ahead like that ?" "Begor, yer Honour," was the reply, "I was afeerd ye would be fired at by the boreen beyant, and shure I wouldn't like to be on the car wit' ye whin the boys are takin' a shot at yer Honour."

LORD BEACONSFIELD'S new novel, "Endymion,' was to be published by Messrs. Longmans the week after the mail left. Although some disappointment may be experienced by those who expected in this its pages a brilliant description of men and manners during the Beaconsfield administration, they will, says the *Pall Mall Gazette*, be consoled on discovering that Endymion, the hero who gives the title to the work, bears a strong family resemblance to the remarkable individual whose principles and politics were first revealed to the world under the disguise of Vivian Grey. Endymion, it need hardly be said, moves, like his original, in the society of "sovereigns and statesmen." Among other personages who appear in the novel, they say, are to be found the late Emperor of the French and a statesman who, but for the fact that the story concludes nearly twenty years before Sedan, might have been mistaken for the Prince-Chancellor of Germany.

A WRITER in one of the society journals says : hear that Lord Hartington mast-headed Mr. Adam in India to get him quietly out of Cæsar's (Mr. Gladstone's) way. Between these two there never was much love lost. It was a manifest slight to the Liberal whip when he was nominated a second time First Commissioner of Works. He reasonably expected something better—fancied the Post Office ; yearned for the Speakership, with its reversion of a peerage and a pension. Mr. Gladstone, it was no secret, wished to send him to Washington (!)—about the most humiliating "shunt" of all for a man of Mr. Adam's ambition. Happily for himself the Laird of Blair Adam had a friend in Lord Hartington. He resumed his old place as Inspector-General of Flower-pots on the understanding that he should have something better shortly. He has got it ; and is off. Madras is an untroubled presidency in a political sense ; and, if he can be spared a famine, Mr. Adam will have a good time.

WHEN the vexed question of improving the status and increasing the pay of military surgeons is on the *tapis*, it is as well, remarks the *World*, to recognise the dangers they encounter and willingly share in common with combatant officers in active service. An officer in a Highland regiment engaged in one of the late battles under General Roberts describes the valour of his medical attendant in a few words, written with difficulty from his tent, where he still lies dangerously ill. He was shot down when leading on his men. "The two men, who carried me into a hut, set down their rifles to try and prop me up, when a Ghazi rushed out on us, slashed me about the head, laying me flat on the ground, and wounded the guard, then turned on me again, cutting my back, and set to work to finish me, when a Ghoorka killed him, and his body all but fell across mine. After this they put me in a dhoolie, and Dr. Roe came and was sewing up my wounds when there was an alarm given by the man placed as sentry, and they were surrounded. Dr. Roe collected five men—two of them wounded—and kept out the attacking furies, killing eleven of them, and the rest bolted."

"GRIFFITH'S valuation" is constantly mentioned in connection with the Irish land agitation. Some particulars as to what the term indicates are supplied by the London correspondent of a contemporary :—" Mr. Griffith was an Irish Poor-Law Commissioner of known ability. He was selected to value all the holdings, land, tenements, &c., in Ireland, with the view primarily to the equitable assessment for poor-rates. The legislature, of course, had no intention of meddling with rentals ; but Mr. Griffith's valuation would naturally be regarded as an approximate estimate of the rent which a fair landlord would expect from a good tenant. Mr. Griffith executed his task with an industry, intelligence, and impartiality which were at once everywhere recognised : and the honour of knighthood which he received had confessedly seldom been more worthily earned. The controversy, however, as to whether Griffith's valuation referred to rentals as well as to rating, or to rating only, is none the less absurd because the valuation itself was equitable at the time. The reason why Griffith's valuation acquired such authority was that as regards the land (the case of houses, of course, was different) it was founded on a careful observation of the value of the land's produce. Mr. Griffith took seven chief articles of Irish produce—wheat, oats, barley, butter, beef, mutton, and pork, and ascertained the selling price per cwt. of each in the years 1846 and 1852. The prices of these staples differed very little in the two years, though five years had intervened. The price of 7 cwt. (*i. e.*, of a hundredweight of each of the seven commodities) was in 1846 £9 5s., and in 1852 had risen no further than to £9 11s. 2d. The merit of Griffith's valuation consisted in being accurately based on these prices of produce. If the prices had been different, the valuation would have been different. Now, it so happens that a Bill was brought into Parliament in 1877 'to amend the laws relating to the valuation of rateable property in Ireland,' and in this Bill the prices of the same seven articles in the year 1877 were specified in the same form as in 1846 and 1852. It then appeared that the value of the same quantity of the same things, which had been in 1846 £9 5s. and in 1852 £9 11s. 2d., had risen in 1877 to £11 2s. 4d. ; in other words, had nearly doubled. Obviously since the value of land to a farmer depends upon the value of what the land produces, if Griffith's valuation was equitable according to the prices of 1852, a much higher rental may without extortion be expected when prices range as high as in 1877." On the other hand, it appears that Griffith's valuation was in some districts contested at law as too high, and the courts reduced it 20, and even 30, per cent. It is contended that if litigation had been generally resorted to, it might have been reduced all round. The valuation was based not only on the value of the land, but upon the tenant's improvements : hence when in the successive augmentations of rent Griffith's valuation has been largely overpassed a "harking back" to that standard is regarded by the tenants with mixed feelings.

THE MALABAR HILL CHURCH.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—In the *Bombay Gazette* of the 1st instant "Christian" criticises "Dissenter" in the protest that has been made to the Government grant of Rs. 5,000 towards building a church on Malabar Hill. I submit that the question should not be treated from either a churchman's or dissenter's point of view, but as to whether it is right in principle. Let me therefore produce the weighty opinion of an individual whose impartiality cannot be disputed—the late Rev. Philip Anderson, who was Chaplain of Colaba. In his own *Bombay Quarterly Review* for 1852 he wrote :—

"We are compelled to ask how far the Government of a heathen country is justified in appropriating any portion of its revenues to the support of a Christian church. It must be admitted that by no ingenuity of reasoning can it be shown that such a portion is applied to the benefit of the people of India . . . it is for the exclusive benefit of an alien section. And thus it must be regarded."

By "no ingenuity of reasoning" can the force of this testimony be evaded by those who have so unwisely obtained money from the Government to aid in building a Christian church for the wealthy community of Malabar Hill. This false step will bear its fruit.

TAXES IN BILLIMORA.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—A commission was lately appointed by Sir Mahdavrow to investigate the rights of the Desai of Gundevi, which empower him to impose taxes upon the inhabitants of Billimora. The commission has done the business enjoined upon it, and has furnished Sir Mahdavrow with a detailed account of its proceedings. Before Sir Mahdavrow gives his own decision, however, a few remarks on the subject will not be considered out of place at such a time.

The aggregate amount of money that the Desai exacts from the inhabitants of Billimora, especially the fishermen, annually amounts to the large sum of 25,000 rupees. In olden times, when railways were not introduced in India, and when the commerce of Gujarat was in a very flourishing state, the fisherman did not feel the burden of such taxes. But at the present day, when he can hardly earn enough to keep body and soul together, he is justly justified in clamouring against the privations and sufferings which are the outcome of such taxation. In fine, he is reduced to such a miserable plight that he hardly finds means sufficient to maintain existence. Does it, then, seem inconsistent, in such circumstances, with the good motives of a just and benevolent administration to allow such a state of affairs to continue any longer ?

The inhabitants of Billimora suffer much under the present heavy taxes. What they most earnestly and lawfully seek from Sir Mahdavrow is the entire abrogation of the privileges of the Desai. The violation of the public rights and privileges of which he accused may be partly attributed to the neglect on the part of the Gaekwar's Government of the sense of duty which it owes to its subjects. The tendency of Sir Mahdavrow's policy has hitherto been to gratify the public expectation, and I hope that this same wise tendency will be observed in this case, which is of political significance ; and it is by these means alone that he will obtain that honour and esteem from his subjects which are attained by a popular ruler from a loyal and law-abiding people.

FIRE.—A jowlee hut situated on the Sitladavey Road, Mahim, caught fire on Tuesday last, and was burnt down to the ground within a short time. The fire is said to have originated through the careless use of a fire-place in the hut. The damage is estimated at Rs. 30.

ASSAULT ON THE HIGH SEAS.—William Gentry, steward of the British ship Royal Alexandria, was yesterday convicted by Mr. C. P. Cooper of assaulting Charles H. Dean, the cook of that vessel, on the 18th November last, on the high seas. The circumstances of the case are as follow :—It appears the complainant and defendant were not on amicable terms during the whole voyage out, and constantly were disagreeing with each other. On the day in question the defendant (Gentry) obtained a tin can of boiling water, containing two gallons, from the complainant (Dean), when an altercation ensued, and Dean appears to have abused Gentry ; on which Gentry threw the boiling water over Dean, severely scalding him about the arm and chest, which laid him up for a fortnight. His Worship, in disposing of the case, fined the defendant Rs. 100, or in default one month's rigorous imprisonment. Rs. 50 of the fine, if recovered, to be awarded to complainant as compensation.

The battery will be despatched to Ahmednagar by rail on the morning of the 11th December, and the detachment of the 26th N. I. to Ahmedabad on the 11th December by the mail-train.

A NEW JOURNAL.—A new newspaper is to appear in Poona on the 2nd of January under the title of the *Mahratta*. We are told it is to be conducted by nine native gentlemen, but we think the editorial staff too strong. If "nine tailors make a man," considerably less should make the *Mahratta*.—*Deccan Herald.*

Mr. Narayen Juggonath Bhide opened the case for the prosecution, after which seven witnesses were examined. The confessions made by accused Nos. 1 and 4 before the Second Class Magistrate of Joonier were read and recorded. Some of the prisoners produced witnesses for their defence. Mr. Judge Newnham analysed the evidence, and charged the jury, who were unanimous in their verdict, *id est*, Nos. 2, 3, and 4 guilty, Nos. 1, 5, 6 not guilty. CHARGE OF EXTORTION AGAINST JAIL EMPLOYES.

THIS case was resumed in the Police Court before Mr. C. P. Cooper, Chief Presidency Magistrate, on Tuesday last.

The following evidence was recorded :—

Goma Kurma, being examined, said :—I am a shroff, and keep my shop in Nagpara. I live there. I know Tullukchand Taikchand. He is my son-in-law. I remember his being sent to the Common Jail on 10th September last. A sepoy came to me on 12th September without a belt. He brought a note to me. I have not the note with me. I handed it to Mr. Brewin. The sepoy brought me this note (exhibit D) and spoke to me, and afterwards left. The note remained with me. I would know the sepoy again if I saw him. Prisoner No. 3 is the sepoy who brought me the note. Next day prisoner No. 3 brought me another note. I cannot say exactly, but it may be this note (exhibit D). That note remained with me. Prisoner No. 3 came alone the second time. After prisoner No. 3 left I took Rs. 112-8 and gave it to Khondaji. I found Khondaji at Nagpara. No one was with him when I gave him the money. I sent Khondaji and Muckna Setta with the money to the jail. Khondaji lives in the same house as I do. I saw Muckna Setta at the same time and ordered him to go with Khondaji. None of the prisoners were there at the time. I did not go with them. I made an entry of about Rs. 26 in this book. This is the entry. This is my cash-book for the last two or three years. This entry was made on 24th September, and debited to Tullukchand's account. I paid this Rs. 26 on 24th September last to Ardesir at 8 o'clock in the morning in the jail. I paid it in the presence of Tullukchand. No one else was present. I afterwards made this entry. Tullukchand told me to give Ardesir the money. I gave the money. That day I only paid Rs. 25, as I had only Rs. 25 with me. Afterwards Ardesir sent a sepoy with me to my house. I borrowed a rupee from one Oka Jessa and gave it to the sepoy. This is the sepoy (Oosman Khan Amir Khan). I afterwards made this entry in the cash-book (put in and marked G). I went to the jail, because a man had come to call me—the sepoy I have just pointed out. I took the Rs. 25 to give as a bribe, because he asked me to do so. Tullukchand wrote me a letter to that effect. I have lost that letter. I afterwards paid Rs. 6 to Oosman Khan. He came with a note. I gave that note to Mr. Brewin. This is the note (exhibit C). I made an entry of the payment in my cash-book. This is the entry. I made it on 4th November (cash-book put in and entry marked H). Besides the letters I mention I received two or three other letters, which I have lost.

Cross-examined by prisoner No. 1.—I also went to the jail one day previous to my paying the Rs. 25. I went alone, but I was sent for. No *ghati* went with me. No one went with me. There was a boy standing at the gate. As I went in he followed me. I did not take him. You, prisoner No. 2, and myself were there. I do not remember if anyone else was there. I do not remember if the sepoy who came to call me was seated on a bench by me. The Rs. 25 were given into the hands of Ardesir. Ardesir was sitting on a chair at the time. You were present when I gave the money. I am quite sure the money was paid to Ardesir. I gave him a note for Rs. 20 and another for Rs. 5. It is not true I gave into your hands two notes for Rs. 10 each and Rs. 5 in cash. Tullukchand told me that he had promised to pay you Rs. 6 because of ill-treatment. Tullukchand used to write me to that effect. He used not to write to me daily. He never wrote to me after the Rs. 6 were paid. I have handed in three letters, and lost two or three letters. I do not remember the contents of the letters which are lost.

Cross-examined by Mr. Pherozsha Mehta.—I went to the jail a day previous to the day on which I paid the Rs. 25. A sepoy told me to come. He did not bring me a note. On the previous day I saw Tullukchand and prisoners Nos. 1 and 2. On that same day I went alone. I saw the prisoners in the *jaora* room in the jail near the scales, where Ardesir sits. Tullukchand said to me, "I want to pay money ; have you brought money ?" I said," to-morrow or the day after I will bring the money." Tullukchand had sent word by the sepoy who came to call me on that day. Tullukchand did not write me for the money. Nothing else, except the conversation I have mentioned, took place on the previous day. I had no conversation with Ardesir on that day. I only was sitting near the table on a chair. I saw Ardesir sitting there on the two occasions that I went to the jail. Oosman came to call me on the next day. I took money and went with him. He said "Come, you are called ; you promised to come to-day." Upon that I went to the jail. He brought me no note. Tullukchand sent me a note for Rs. 25. Oosman brought me that note. I cannot say how many days before I made the payment I received the note. I have not notes by me. I destroy them as vouchers of payments, but I have lost some of them. I have lost several vouchers within the last year. I cannot remember any particular instance. I can give no reason why I cannot find the voucher for Rs. 25. I see the entry of Rs. 112-8 (exhibit F). It is not stated in this entry that the money was paid on behalf of the saheb. The word saheb does not appear in the entry. This is the entry of Rs. 26 (exhibit G). It is not stated that this money was paid into the hands of Tullukchand. It is not mentioned in whose hands the money was paid. I paid the money to Ardesir, because Tullukchand told me to do so. Ardesir did not say anything. I did not see Balloo (the tailor) in the jail. I do not know him. Ardesir did not say to give a rupee. He said this in my presence. The sepoy was not present. He was called and sent with me. Prisoner No 1 said nothing. I gave the rupee to the sepoy outside the jail. Prisoner No. 1 was the only person who told the sepoy to go for the rupee, and not No. 2. On making enquiry at the jail I learnt Ardesir's name.

Oosman Khan Amir Khan.—I am a sepoy in the Common Jail. I know the three prisoners. Prisoner No. 1 is a muccadum in the Common Jail. He is a convict undergoing sentence. Prisoner No. 2 is a clerk in the Common Jail. He examines and measures the prisoners on their entering the jail, and makes entries in the book. He also keeps an account of the rations. Prisoner No. 3 is a sepoy in the employ of the Common Jail. I know Tullukchand Taikchand. I remember his being brought to the jail about three months ago. On one occasion Ardesir gave me a note for Rs. 25. He said, "this is a note for Rs. 25 ; take it to the Marwari's house." He mentioned the name of the Marwari. I don't remember it now. He said, "tell him to bring it soon." I asked Ardesir if he had reported the contents to the saheb. Ardesir said," yes." This letter was written after the report was made. I then went to a shop opposite the Jamsetjee Jeejeebhoy Hospital. This is the Marwari (Goma Kurma). I gave the note to him. He read it. He then called a boy, and he also read the note. After that Goma Kurma came with me to the jail. When I went to the jail I made Goma Kurma sit outside. I told Ardesir, "the Marwari you sent for has come." Ardesir told me to call him in. I told Kassim havildar and the sepoy stationed at the door to allow Goma Kurma to come. I told the Sett wanted him. Goma Kurma came in and placed himself near Ardesir's table. Ardesir said to Goma Kurma, "Have you brought the money ?" He said, "Yes, I have brought it." Ardesir then sent for Jamsetji. Jamsetji brought the prisoner (Tullukchand) into the godown. Tullukchand then talked to Goma Kurma. Tullukchand told Goma to give the money to them. After this Goma and Tullukchand continued talking to each other. I then left. I saw two notes given. They were given by Goma. I do not remember to whom. They were not given to Tullukchand. Besides Tullukchand, Ardesir, and Jamsetji, Vishnu was there. The notes were not given to him. Some sweepers were also there. The notes were not given to them. They were received by either prisoner No. 1 or No. 2. I do not remember which. Shortly after Ardesir called me. He told me to get a rupee from Goma Kurma. A and Goma came out of the jail after this. Before we reached Goma's shop Goma borrowed a rupee from another shopkeeper and gave it to me. I returned to the jail, and gave the rupee to prisoner No. 2. I do not know what he did with it. I left the jail and went to my house. A few days afterwards Ardesir gave me a note for Rs. 6, and told me to go to the same Marwari, saying, "he will give you the money, as I have told him to do." I went to the shop, and there saw Goma and a boy. They read the note. Goma said he had no money then, but that I should come in a few days. I took the note back to the jail and gave it to Ardesir, telling him that Goma said, "I have not the money now : come in a few days." After a few days Ardesir gave me another note, and told me to take it to Goma's house. I took it to Goma, who read it. He said, "come after the Dewali." I returned with the note to Ardesir, and returned it to him. I told him that Goma said to come after the Dewali. On Dewali day Ardesir gave me another note to take to Goma. I took it to Goma's shop. Goma read it, and told me to come next morning. I took the note to my house, and the next day took it to Goma's shop. He was not there. Goma returned after a time and gave me Rs. 6. I took the money to Ardesir. I then went about my work. I do not remember how long after Tullukchand was sent to jail Ardesir gave me the orders for Rs. 25. It was in the morning. I had been on night duty.

Cross-examined by prisoner No. 1.—I did not see the Rs. 100 given to Mr. DeSouza. I know that Mr. DeSouza is in the habit of sending to prisoners' houses for money. I know that money has frequently been brought to the jail in this way for Mr. DeSouza. Ardesir used to receive it. I had an order from DeSouza to see in cases in which money was given to Ardesir. PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, &c.

DR. DE ROOS' COMPOUND RENAL PILLS

ARE celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints, Discharges of any kind, Stone in the Bladder, and Diseases of the Kidneys and Urinary Organs generally. Possessing tonic properties, they agree with the most delicate stomach, strengthen the digestive organs, increase the appetite, improve the general health, and in three days will effect a cure when copaiba, cubebs, and all dangerous medicines of that class have utterly failed.

These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone, many thousands are annually restored to health, and the agonies of gout and rheumatism may now be considered a voluntary affliction, as no one need suffer these excruciating torments if they will only have recourse to these Pills, which are confidently recommended by the proprietor as the only real specific; whilst for weakness across the loins, sandy or other deposit in the water, and in all cases of reval or urinary disturbance, they are indeed unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder, &c. Many complaints, long supposed to be nervous, often arise entirely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In boxes 1s. 1½d., 2s. 9d., 4s. 6d., 11s. & 33s.

THE MOST WONDERFUL PILLS IN THE WORLD
DR. DE ROOS'

PILULÆ VITÆ, OR VEGETABLE LIFE PILLS.

ALL sufferers from general nervousness, and morbid feelings, low spirits, loss of memory, sleeplessness, harassing dreams, unnecessary fears, mental irritability, failure of the mental and bodily powers, weakness of the nerves, headache, noises in the head, giddiness, indigestion, and other symptoms of chronic disease, will hail with joy the discovery of Dr. De Roos' Life Pills, which speedily and almost magically remove pain and diseases of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend, they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulency, bile, sick headache, dizziness, loss of appetite, lowness of spirits, the sensations of fulness at the pit of the stomach, pain between the shoulders, and the distress arising from indigestion and general debility they will be found of unexampled efficacy; and it is no small advantage that they can be taken at any time without danger from wet and cold, or necessity for restraint from business or pleasure. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when present, curing the jaundice, and dropsy, clearing the skin, removing sallowness and pimples, purifying the blood, bracing the nerves, and marvellously invigorating the whole system. Females of all ages will find them invaluable, and should never be without them. Price 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 33s. per box.

THE MOST ASTOUNDING CURES

Are daily being effected in cases of Nervousness, General Debility, Impurity of the Blood, Defective Circulation, Langnor, Lassitude, Depression of Spirits, Indigestion, Pain and Palpitation in the Side, &c., &c., by
DR. DE ROOS'

WORLD-FAMED GUTTÆ VITÆ, OR VEGETABLE LIFE DROPS,

whose effects are really magical in restoring lost tone to the system arising from whatever cause, re-invigorating and enlivening the whole corporeal frame, and gradually, but effectively, building up the most shattered constitution.

Although this truly wonderful preparative Tonic is not put forward as imparting immortality, it is not too much to say that by its means new life is, as it were, imparted to the nervous and debilitated, who were evidently sinking into an early grave; whilst to those of mature years it will gently and serenely protract the close of life. Thousands of apparently hopeless cases, given up by the faculty, are now in the enjoyment of health diffe's greatest blessing, a living testimony to the unspeakable value of this remarkable medicine. Hundreds of testimonial, too numerous to publish, may be seen by any one. This preparation is extremely pleasant to take and none need suffer while such a miraculous medicament is in existence. Persons of studious habits, debilitated females, and those on whom the wear and tear of life is beginning to tell, should persevere steadily with this life-reviving tonic for one month and they will be astonished at its results. All those who have tried other means, galvanic and electric appliances &c., without any beneficial result, are earnestly recommended to make fair trial of this medicine, which, being concocted on the highest scientific principles invariably gives the utmost satisfaction. Price 11s. and 33s. per bottle. Every package of Dr. De Roos' Preparations has the words "Walter de Roos, London," printed in white letters on the British Government stamp by order of Her Majesty's Hon. Commissioners. Sold by Messrs. Treacher & Co., Limited Bombay, and all the principal merchants in India.

PROVISION FOR OLD AGE COMBINED WITH A PROVISION FOR THE WIDOW AND ORPHAN.

EXAMPLE.

A CIVILIAN, European or Native, aged 20 next birthday, wishes to lay apart a sum of about THIRTEEN RUPEES a month in such a way that his savings will be securely invested until thetime of his retirement from Service; and that should he die beforehand, a provision will be secured for his relations. By payment of a sum of Rs. 163-0-0 per annum (or at the rate of about Rs. 13-0-0 per mensem) as the premium for an endowment Assurance, he will become entitled to Rs. 5,000 on attaining age 55; and should he di before attaining that age—even after payment of only one year's subscription—the full sum of Rs. 5,000 will be paid to his representatives. [*Vide* Table III. of Prospectus.]

THE SAME PROVISION, IF COMMENCED

at age 25 would cost about	EIGHTEEN RUPEES a month;
at age 30	EIGHTEEN RUPEES a month;
at age 35	TWENTY-ONE RUPEES a month
at age 40	TWENTY-EIGHT RUPEES a month;
at age 45	FOURTY ONE RUPEES a month;

The rates for other Ages, also for Endowments payable at Ages 45, 50, and 60, and all further information, may be obtained on application Premiums can be paid half-yearly, quarterly, or monthly, at slightly increased rates.

There is an obvious advantage in effecting Investments of this nature *early in life*:—by delay the rate of subscription increases:—death may occur before the intended provision is made:—or health may fail and render the life ineligible for Assurance.
